Stage 1 - Letter of Claim

Our initial Letter of Claim demanding payment is usually enough to encourage payment of the debt. Over 50% of debtors provide payment upon receiving our letter.

For **£100 +VAT** we will:

- Take your instructions;
- Prepare and send a Letter of Claim to your debtor (including contractual or statutory interest if appropriate); and
- Forward any payment received from your debtor to you.**

* Please note that any reference to VAT is at the current rate of 20% unless otherwise stated.

** Please note in some cases you could recover the debt, interest, an additional statutory penalty and 100% of your legal costs.

Stage 2 - Issue the Claim

In the event that payment is not received following the Letter of Claim, we can issue a claim on your behalf. That claim will include either contractual or statutory interest and you will also need to pay a Court issue fee depending on the value of your claim.

Our costs of issuing the claim are based on the value of your claim. If the claim is undisputed and the debtor pays you will recover the debt, interest, a statutory penalty (if relevant), the Court fee and up to 100% of your legal costs.

Stage 3 - Request judgment

If the debtor either admits or fails to acknowledge or defend the claim we will request judgment on your behalf. There is no Court fee for this but we will charge an additional fee for that request depending on a) the value of your claim (including interest) and b) whether the debtor has admitted the claim or failed to acknowledge or defend it.

When you obtain judgement it will include the debt, interest, a statutory penalty (if appropriate), the Court fee, up to 100% of your legal costs up to and including the issue of the claim and a contribution towards our costs for requesting judgment. In some cases the statutory penalty could mean that you will recover all of our costs for requesting judgment.

Key points

Anyone wishing to proceed with a claim should note that:

- The VAT element of our fee cannot be reclaimed from your debtor if you are VAT registered.
- Interest claimed on your debt may take the debt into a higher banding, with a higher Court issue fee and costs.
- Please note that the Late Payment of Commercial Debts (Interest) Act 1998 (the Act) allows you to claim interest from the date for payment of each invoice. For applicable debts, if your debt is comprised of a number of invoices we will claim interest under the Act in relation to the total amount due but it will only be from the date for payment of your last invoice. We can claim interest in relation to each invoice at an additional cost. If this is something you are interested in please speak with us.
- Any additional work not included above will be charged on a time spent basis at an hourly rate of between £150 and £160 +VAT depending on the seniority of the DebtLink team member.
- Disputed debts and any debts over £50,000 are not included in the DebtLink service. To discuss these excluded debts please contact a member of the team.

* Please note that any reference to VAT is at the current rate of 20% unless otherwise stated.

Timescales

Timescales will largely depend on how the debtor responds to your Letter of Claim or claim. If Court proceedings are not necessary, matters usually take around 2 to 5 weeks from receipt of instructions from you to receipt of payment from the debtor. If it is necessary to issue a claim and the debtor pays promptly on receipt of the claim or judgment, then matters usually take around 2 to 3 months to conclude. These are however general guidelines and additional factors such as whether the debtor is a Limited Company or an individual and how quickly the Court deals with your claim can cause matters to be delayed.

If enforcement action is needed, the matter will take longer to resolve.
